Senior accounts are available to members 60 years of age and over. Members under 60 – with a chequing account – will be automatically moved to the senior's version of their account when they turn 60. Account numbers and nicknames will not change.

Student accounts are available up to the age of 24. Members aged 19–24 who would like a student account must show proof of enrollment in a full-time post-secondary program to continue using the student account. Upon turning 25, the member will be moved to our Everyday Convenience Account but can contact us if the Everyday Premium Account is preferred.
